Accessories List for Olfactometer and Gustometer

Status:2023

Picture	Name	Description	Fit for type	Item #	Price*
	Breathing sensor	Detects inhaling or exhaling of a subject and initiates a TTL signal.	OL022 OL024 OL023	LA-07-04005	€ 3.515,00
	Feedback box	Allows to detect 2 feedback signals via 2 buttons. The software detects response time from trigger release to keypress. The integrated lamp can be used for subject's preparation. It is connected to trigger opt. Works only in combination with Signal link box.	OL022 OL024* OL023 OG001 GU002	LA-07-02093	€ 518,00
	Signal link box	The triggerbox converts the 25-pin connection from all Burghart devices to a trigger-in, trigger-opt and trigger-out, as well as a connection for the lamp and a feedback box. At birhinal mode trigger out is trigger L(left) and trigger opt is trigger R (right)	OL022 OL024* OL023 OG001 GU002	LA-07-03290	€ 315,00
